About ACM Multimedia 2017

Since the founding of ACM SIGMM in 1993, ACM Multimedia has been the world wide premier conference and a key world event to display scientific achievements and innovative industrial products in the multimedia field. In 2017, we will celebrate the 25th ACM Multimedia in the Computer History Museum in Silicon Valley (Mountain View) with an extensive program consisting of technical sessions covering all aspects of the multimedia field in forms of oral and poster presentations, tutorials, panels, exhibits, demonstrations, and workshops, as well as bringing into focus the principal subjects of investigation and competitions of research teams on challenging problems. Moreover, its interactive art program stimulates artists and computer scientists to meet and discover together the frontiers of artistic communication. Details and updates are published on the conference website: www.acmmm.org/2017.

Call for Contributions:

ACM Multimedia 2017 is welcoming a number of different contribution types (partial list, please visit the website for details):

- Regular Scientific Papers
- Industry Exhibitions
- Brave New Idea Papers
- Business Idea Venture Program
- Interactive Art Exhibition
- Open Source Software Competition
- Multimedia Grand Challenge Competition
- Workshops
- Tutorials
- Panels
- Makers' Program
- Doctoral Symposium
- Technical Demonstrations
- Video Program

Note, this year we have unified long and short papers into a single regular scientific papers submission and review process. The unified track has a flexible range of paper lengths (6-8 pages plus references), supporting shorter as well as longer papers.

Conference Location - Computer History Museum in Silicon Valley (Mountain View)

The Computer History Museum is dedicated to the preservation and celebration of computer history and is home to the largest international collection of computing artifacts in the world, encompassing computer hardware, software, documentation, ephemera, photographs, oral histories, and moving images. We will celebrate the 25th ACM International Conference on Multimedia in this unique ambiance as well as in the nearby MS Silicon Valley Campus Conference facilities.
